LYSET

everything is about light

lighting catalogue 2024-2025

The Lyset brand steps up to fill the needs of designers and architects that want to provide the best for their clients. With each decision we make as we develop our portfolio, we work to achieve the highest standards of exquisite simplicity and lighting systems. Under the Lyset brand, we choose the best products available, and we are pleased to collaborate with our business clients.

Whether you visit us in our showroom or have already made the decision to integrate our lighting systems with your architectural projects and home designs, we offer a premium experience. When you choose the Lyset brand, we commit that we will develop the solutions we have been searching for to take your home design to the next level.

Are you seeking a customized approach? We are here for you and will help you with any queries you may have. Until you offer the best architectural and design project to your own clients, we will support you along every step of your creative journey.

The Lyset brand offers intelligent lighting solutions for every project, complementing today's smart homes. Most Lyset products are compatible with platforms for managing smart homes on most smartphone apps. When one chooses the Lyset brand, they never have to sacrifice beauty for functionality because all of their ranges are flexible, compatible with smart apps, and customizable to meet any needs that the customer may have.

FALL 2025

novelties

TRIA

TRIA is the spotlight that doesn't want to be seen. Designed by Lyset's founder, it features an ultra-thin 3 mm trim – made for projects where visual discretion is key, but lighting quality can't be compromised.

Its optimized optical structure delivers a **UGR under 9**, ensuring visual comfort even in high-brightness environments. And with a **CRI of 95**, it renders colors with absolute fidelity – just as they were meant to be seen.

Available in two versions, depending on your lighting needs:

TRIA M - Power **12W** × Lumen **850lm** × CRI **≥95** × UGR **<10**
TRIA S - Power **7W** × Lumen **540lm** × CRI **≥95** × UGR **<10**

novelties FALL 2025

ZYRO

Small, Sharp, Versatile.

Zyro is a compact spotlight designed for flexibility across residential and hospitality spaces. Don't be fooled by its size – with **520 lm** and **CRI 95**, it delivers powerful, accurate light where it matters most.

Whether you're aiming for **general lighting** in residential interiors or creating **focused accent light**, Zyro adapts to your design intent. Thanks to its adjustable head, it's ideal for directing light towards **artwork**, **textural surfaces**, or **specific decor elements**.

Pro tip: Always check ceiling height and artwork placement in elevations when setting the beam angle.

- Use a **narrow beam** to create drama over a coffee table or spotlight a textured corner of the sofa.
- Perfect for **narrow corridors or hallways**, where its compact design avoids visual clutter while subtly guiding movement.
- In dining areas or restaurants, combine Zyro with decorative **pendant lights**: while the pendant sets the mood, Zyro brings functional clarity and adds a second lighting layer to complete the atmosphere.

Power **7W** × Lumen **520lm** × CRI **≥95** × UGR **<12**

novelties FALL 2025

SKYFT

Focus Where You Need It.
Skift is a height-adjustable recessed spotlight designed to bring precision and control into both residential and commercial spaces. Whether used as a **single accent light** or arranged in a **composed rhythm of multiples**, it offers the flexibility to elevate any corner or focal point.

With its **slim cylindrical** body and minimal design, Skift disappears into the ceiling. Its standout feature lies in its adjustability:
– Lower it to draw attention where needed
– Retract it for a seamless ceiling line and cleaner architectural finish

Ideal for spotlighting artworks, reading nooks, product displays or architectural details, Skift is built for projects where **light shapes space without taking over**.

Power **5W** × Lumen **300lm** × CRI **≥95** × UGR **<19**

FALL 2025

novelties

BAT

The BAT spotlight is a high-performance IP54-rated downlight, making it the ideal choice for bathrooms and beyond. It ensures bright and efficient illumination while maintaining a sleek, modern aesthetic. It is also equipped with a dip switch, allowing you to select between 3000K, 3500K or 4000K color temperatures.

Power **12W** × Lumen **850lm** × CRI **≥90** × UGR **<16**

FALL 2025

novelties

QUANTUM

Quantum Flat

Quantum Curved

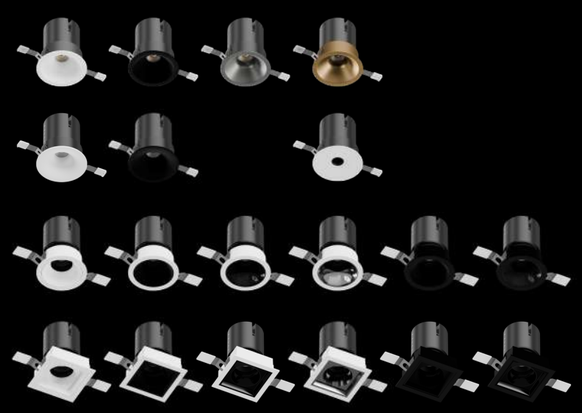
Quantum X

Quantum R Adjustable

Quantum S Adjustable

Experience the perfect harmony of power and elegance with the Quantum recessed downlight. This exquisite luminaire delivers an impressive 10W output, a testament to its cutting-edge engineering and it is crafted from the finest pure high-end aluminium.

Power **10W** × Lumen **600lm** × CRI **≥90** × UGR **<10**



FALL 2025

novelties

NOIR

Compact. Clean. Powerful.

NOIR is an adjustable downlight that offers both **recessed and trimless** installation options, adapting seamlessly to various architectural needs. Its refined design is available in **both glossy and matte finishes**, allowing it to blend subtly or stand out with intention.

Despite its compact size, NOIR delivers up to **650 lm** with a **CRI 90+** and **UGR <12**, ensuring powerful, glare-free performance in any environment. Whether you're spotlighting key areas or layering ambient light, NOIR brings both **precision and elegance**.

Ideal for high-end residential and commercial applications, where form, flexibility, and lighting quality must coexist effortlessly.

Power **9W** × Lumen **570lm / 650lm** × CRI **≥90** × UGR **<12**

novelties FALL 2025

FLEXX

Small Diameter. Strong Output.

Flexx is a recessed spotlight available in both **trim and trimless versions**, designed for maximum lighting performance in a discreet, ultra-compact body. With a **diameter of just 37.5 mm** and a **height of 70 mm**, it's the ideal solution for spaces with **limited ceiling depth** or where a **clean ceiling line** is desired.

Despite its size, Flexx delivers **575 lm** with **CRI 90** and **UGR <13**, ensuring visual comfort and precise color rendering.

With an **IP54 rating**, it's suitable for both **bathrooms** and **indoor architectural spaces**, offering a powerful, versatile lighting solution across residential and commercial applications.

Power **9W** × Lumen **575lm** × CRI **≥90** × UGR **<13**

novelties FALL 2025

POWER S

Power S is a recessed spotlight with an integrated LED, known for its compact size, making it perfect for spaces where discreet and efficient lighting is required. It provides uniform, consistent illumination, suitable for residential, commercial, or workspace environments. Its simple design and small form factor allow it to blend seamlessly into any ceiling.

Power **7W** × Lumen **500lm** × CRI **≥90** × UGR **<16**

novelties FALL 2025

LOKUS PRO

Surface Spotlight, Seamlessly Sophisticated.
Lokus Pro is a high-performance **surface-mounted spotlight**, built to deliver precise, even illumination with minimal glare (**UGR <10**). Whether installed as a **single unit** or in **symmetrical double** configurations, it adapts effortlessly to both **residential** and **hospitality** interiors.

Its clean cylindrical form and refined finish options allow it to visually integrate or confidently contrast, depending on the design vision. Crafted with premium materials, it balances functionality with understated elegance—ideal for dining areas, lounges, or commercial lobbies.

Power **9W** × Lumen **570lm** × CRI **≥90** × UGR **<10**

FALL 2025

novelties

WET PRO

Bathroom Spots, Reimagined.

Bathroom spotlights don't need to be boring or a design compromise. **Wet Pro** combines IP65-rated protection with a clean, architectural silhouette that elevates even the most moisture-prone spaces.

Whether installed in **bathrooms**, **shower zones**, or other wet areas, it delivers safe, consistent illumination with a high **CRI 90** and **UGR <19**, ensuring visual comfort without sacrificing output. You can also **adjust the color temperature via integrated switch** to suit the mood or function — choose from **3000K**, **3500K**, or **4000K**.

Power **10W** × Lumen **764 / 870 / 868lm** × CRI **≥90** × UGR **<19**

FALL 2025

novelties

IVY SURFACE

Introducing Ivy Surface Spotlight, a sleek and versatile lighting solution that mirrors the refined design of the magnetic Ivy. This surface-mounted spotlight delivers a powerful output with an impressive lumen performance, all within its slim and elegant profile. Designed for precision, the Ivy is fully directional, allowing you to illuminate exactly what matters most, creating tailored lighting effects for any space. Perfect for modern interiors, the Ivy Surface Spotlight balances aesthetics, functionality, and performance, elevating any environment it graces.

Power **10W** × Lumen **780lm** × CRI **≥90** × UGR **<16**

FALL 2025

novelties

ZOOMABLE

Precision Lighting, On Demand.

Zoomable is a surface-mounted adjustable spotlight with a **manually tunable beam angle** ranging from **15° to 55°**. It adapts effortlessly from **narrow accent lighting** to **wide general illumination**, making it an ideal choice for ever-changing spatial needs.

Perfect for **art displays, paintings, or decorative objects**, it allows curators and designers to fine-tune light coverage as the subject evolves—whether the artwork changes size or the layout is rearranged. It's also a powerful tool for creating layered atmospheres in corners, shelves, or featured spaces.

Compact and clean, Zoomable delivers precision without visual noise.

Power **12W** × Lumen **857lm** × CRI **≥90** × UGR **<16**

FALL 2025

novelties

GYPSUM D

Gypsum is a recessed spotlight available in **single or double version**, designed to become one with the architecture. Made from **paintable gypsum**, the fixture can be **fully coated in the same color** as the wall or ceiling, allowing it to disappear visually and preserve clean interior lines.

Compatible with **GU10 light sources**, it offers flexibility in choosing the light output and color temperature.

Power **10W** × Lumen **780lm** × CRI **≥90** × UGR **<16**

novelties FALL 2025

ARH

Precision Beams, Designed to Fit.

ARH is built for projects where **lighting precision must be visible**. Its advanced optical system allows you to sculpt light exactly to the shape of a **painting, sculpture, or architectural detail** — with sharp beam clarity and full control.

With a **continuous zoom** from narrow spot to wide flood and **customizable beam shapes** (round, square, rectangular, or even triangular), ARH ensures perfect alignment with the illuminated object — down to the millimeter.

Its **high-performance optics** maintain visual comfort, while a **high CRI** ensures vivid, natural color rendering. Ideal for **galleries, showrooms**, or **refined interiors** where light must enhance without overwhelming.

The compact body keeps a **clean, minimalist profile**, true to Lyset's design language, while the **magnetic track integration** is quick, modular, and seamless.

When light becomes a precision tool.

Power **8W** × Lumen **250-300 lm** × CRI **≥97** × UGR **<9**

novelties FALL 2025

ZOOMABLE

Magnetic Light Zoomable is a zoom-adjustable spotlight designed for seamless integration with the Lyset Magnetic Track System. With a 12W output and a flexible beam angle from 15° to 55°, it shifts effortlessly from focused accent lighting to broad general illumination. This adaptability makes it ideal for highlighting decorative objects or creating tailored atmospheres in any living or display space. Compact and precise, Magnetic Light Zoomable brings targeted control and visual impact to modular lighting setups.

Power **12W** × Lumen **857 lm** × CRI **≥90** × UGR **<16**

FALL 2025

novelties

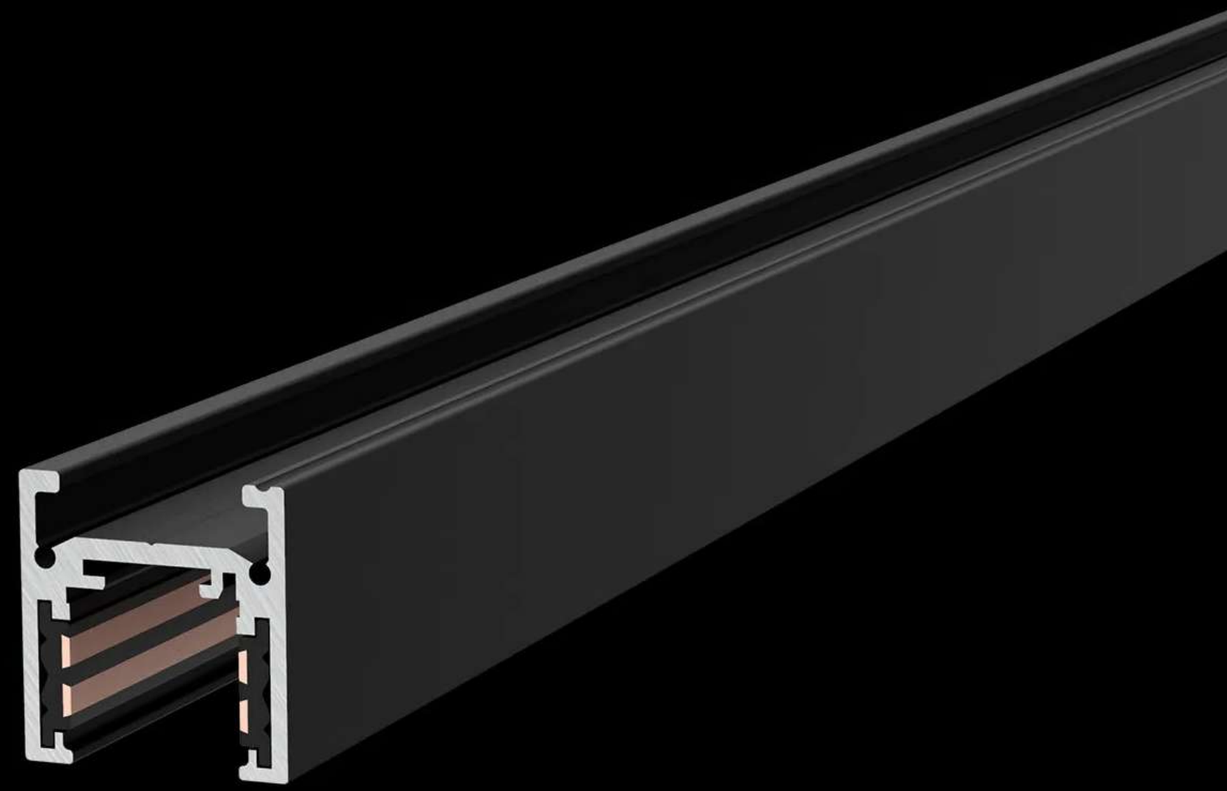
LOW PROFILE MTR

Designed to Disappear.

We introduced the **Low Profile MTR** for situations where a s**limmer magnetic track** is essential — whether due to **low ceiling heights** or the desire for a **less visible lighting system**.

Created for **surface mounting**, this magnetic profile is part of the **Lyset Magnetic Track System** and supports the same modular flexibility as its larger counterparts. It's the perfect choice for **residential ceilings, compact commercial spaces**, or any interior where clean lines and subtle lighting integration are key.

Minimal form, maximum versatility.



novelties FALL 2025

SHALLOW TRACK SYSTEM

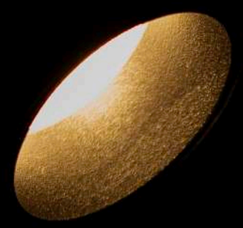
It was created for projects that require a low-profile track system, with no compromise on aesthetics or flexibility. At just 6.5 mm in height, it blends discreetly into any ceiling design — ideal for residential, retail, or gallery environments where minimalism matters.

What sets it apart: the copper conductors are finished in black, ensuring a seamless, uniform appearance without unwanted copper reflections. This attention to detail preserves the purity of the ceiling line.

The track is fully compatible with the Shallow Track Light range, providing a complete solution that combines compact form with modular lighting control.
Minimal profile. Full control. Black-finished elegance.

FALL 2025

novelties



IVY SHALLOW ◯

Designed to meet the demands of discreet yet high-performance lighting, IVY Shallow is an LED projector specifically engineered for 6.5 mm shallow track systems. Its optimized dimensions allow seamless integration into minimalist structures, providing an advanced lighting solution for both commercial and residential spaces.

Power **10W** × Lumen **780 lm** × CRI **≥90** × UGR **<16**

FALL 2025

novelties

LUV 01 SHALLOW

LUV 01 is a linear LED with an integrated honeycomb that sharply cuts glare for superior visual comfort. It delivers a uniform 110° beam ideal for general lighting in commercial, HoReCa, and residential spaces. High-efficiency LEDs and optimized thermal management provide low power use, stable luminous flux, long life, and minimal maintenance—precise, comfortable light with top performance and efficiency.

Power **12W** × Lumen **330lm** × CRI **≥90** × UGR **<19**

FALL 2025

novelties

LUV02 SHALLOW ◯

LUV 02 Shallow Honeycomb is the adjustable version of the LUV 01 model, equipped with honeycomb for an exceptionally low glare index. With high-efficiency LED technology, it guarantees low energy consumption while maintaining a consistent and even luminous flux. Its optimized thermal dissipation system enhances durability, reducing the need for frequent maintenance. Thanks to its adjustable mechanism it allows precise light direction adjustment, offering flexibility and versatility to meet various spatial requirements.

Power **12W** × Lumen **330lm** × CRI **≥90** × UGR **<19**

FALL 2025

novelties

THOR 01 SHALLOW ◯

A fixed linear LED fixture designed for seamless integration into the Shallow System. With a wide 110° beam angle, it provides uniform light distribution, making it ideal for general lighting in commercial, HoReCa, and residential spaces. Combining a minimalist design with the ability to deliver expansive and even illumination, THOR 01 Shallow is the perfect choice for projects requiring efficient, well-integrated lighting in modern architectural settings.

Power **12W** × Lumen **960lm** × CRI **≥90** × UGR **<19**

FALL 2025

novelties

THOR 02 SHALLOW ●○

The adjustable version , designed for seamless integration into the Shallow System. With a wide 110° beam angle, it provides uniform light distribution, making it ideal for general lighting in commercial, HoReCa, and residential spaces. Thanks to its adjustable mechanism, THOR 02 Shallow allows precise light direction control, offering flexibility and versatility to meet various spatial needs. This feature makes it the perfect solution for projects requiring adaptable, efficient, and uniform lighting.

Power **12W** × Lumen **960lm** × CRI **≥90** × UGR **<19**

FALL 2025

novelties

GU10-LIKE BULB

This bulb maintains the standard GU10 diameter, ensuring full compatibility with all GU10-designated fixtures — but with a key advantage: it has a shorter height, making it the ideal solution for installations with limited recess depth.

Despite its size, it delivers an impressive 780 lumens and a CRI of 90, ensuring vibrant, accurate colors and enhanced visual comfort. Ideal when you need better light quality in the same compact format.

Power **7W** × Lumen **750lm** × CRI **>90**
Shorter than standard GU10 × Full GU10 fixture compatibility

novelties FALL 2025

BRUSHED NICKEL

"It has a strong architectural character, discreet yet precise. Perfectly integrated into clean, masculine spaces where the focus is on textures and materials such as stone, concrete, natural wood, and metal. It's a fixture that supports the composition without dominating it. It works exceptionally well in environments where the light is meant to highlight the material, not compete with it."

Ana Mihail
arhitect

BRUSHED GOLD

"Este accentul perfect într-un spațiu sofisticat, contemporan. Finisajul cald aduce profunzime și echilibru în interioare neutre, creând un contrast elegant cu tonurile reci ale metalelor sau pietrei naturale. În același timp, aduce o notă de feminitate și îndulcește vizual compoziția, fără să-i diminueze caracterul arhitectural.

Excelent într-un ambient modern luxury, unde detaliul tehnic devine element de design.

FALL 2025

novelties

NARROW-BEAM DRAMA

"Use a tight beam to create contrast and draw the eye to the living room coffee table surface or the cushions in the corner of the sofa."

Ruxandra Miftodi
lighting designer

novelties

FALL 2025

SLIM SPACES

"Ideal for tight spaces to keep the ceiling uncluttered while subtly guiding the direction of travel.

FALL 2025

novelties

EXTERNAL DRIVER 24V

This external driver features a robust H-type thermal di
design, ensuring stable performance even in demandin
environments. Its wide input voltage range of 170–250V
reliable operation across diverse electrical conditions.

Engineered for efficiency, it delivers tested performanc
100%, while the semi-potted construction provides enh
durability and protection without compromising heat m

Built on an LLC constant-current architecture, it maint
consistent output for superior light stability, and its pur
components ensure exceptional conductivity and long-
reliability.

A solid choice when your installation demands uncompr
performance in a compact, efficient, and thermally opti
driver.

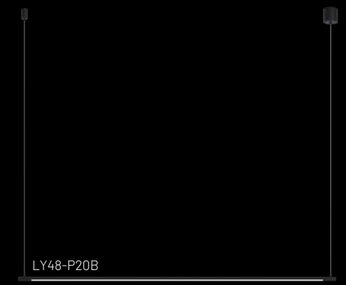
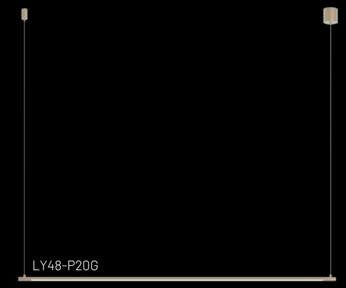
1. suspensions

“

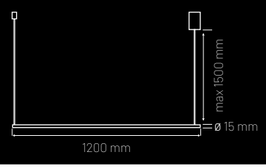
Light is the magical ingredient that makes or breaks a space, it’s one of the most important elements in all interiors





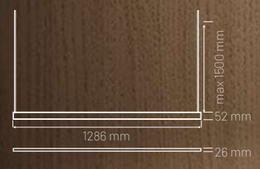
ZEN SUSPENSIONS

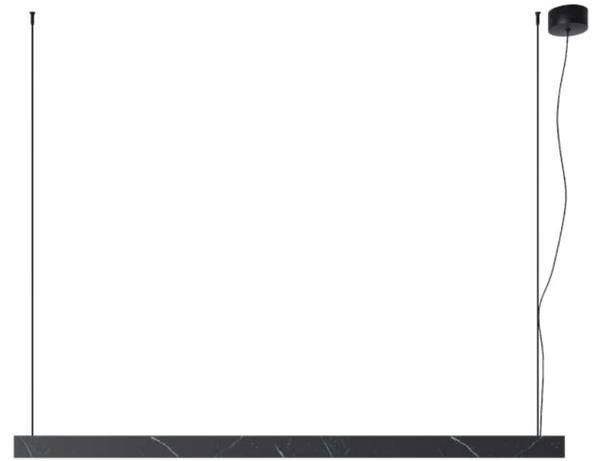
Power: 20W
Lumen: 1400Lm
Material: Aluminium
CRI: >90
IP20
Length: 1200mm
Diameter of the tube: 15mm
Cable Length: max. 1500mm
Color Temperature: 3000k
Driver: On/off

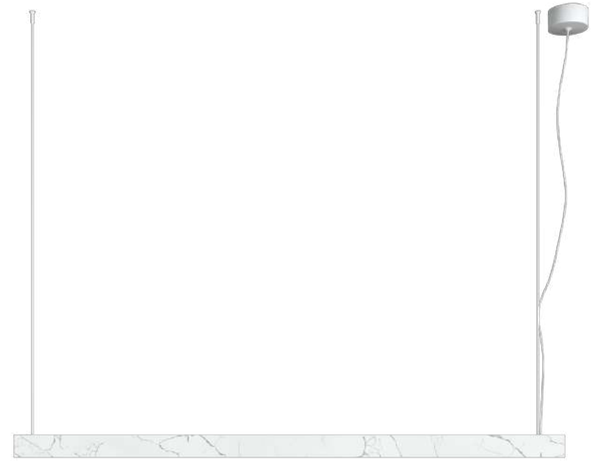


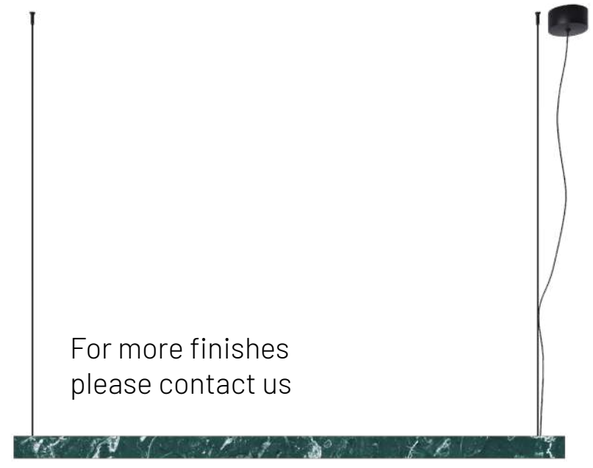
MARBLE SUSPENSIONS

Power: Up-side 28,8W and Down-side 13,5W
Lumen: Up-side 3340Lm and Down-side 2106Lm
Dimmable tochless
Material: natural marble+ aluminium
CRI: 93
UGR: <12
IP 53
Sizes: L1286xW26xH52
Cable Length: max. 1500mm
Color Temperature: 3000k









For more finishes
please contact us

“Light, whether natural or artificial, is an essential material. It creates mood, enhances textures, and makes a space feel alive”

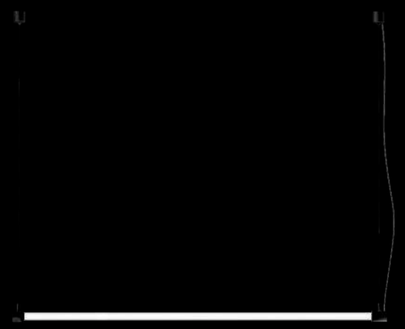
6. flexible neon system

DOUBLE HEAD CEILING

Power/m: 14,4W
Lumen/m: 1300lm for 3000K & 1450lm for 4000K
Volt: 24V
Kelvin: 3000K/4000K
Max. Length 5 meters/1 electricity wire circuit

SUSPENSION

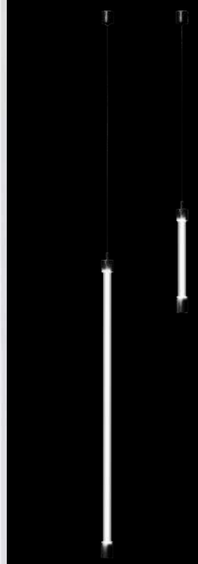
Power/m: 14,4W
Lumen/m: 1300lm for 3000K & 1450lm for 4000K
Volt: 24V
Kelvin: 3000K/4000K
Max. Length 5 meters/1 electricity wire circuit
Cable length: max. 1500mm



HORIZONTAL HOISTING

Power: 21,6W
Lumen: 1950lm for 3000K & 2175lm for 4000K
Volt: 24V
Kelvin: 3000K/4000K
Dimensions: Ø 24x1500mm / Ø 24x1000mm
Cable length: max. 1500mm

“One of the most adaptable lighting fixtures, taking any organic shape needed by your design. It has enough strength to serve as the main source of light but may also be utilized as an accent light. The LED tube can be suspended, mounted on the wall, or mounted as a pendulum. Due to its ability to be dimmed and connected to smart lighting systems, it can be highly customized”



PENDANT

Power: 14,4W
Lumen: 1300lm for 3000K & 1450lm for 4000K
Volt: 24V
Kelvin: 3000K/4000K
Dimensions: Ø 24x1000mm
Cable length: max. 1500mm

WALL

Power/m: 14,4W
Lumen/m: 1300lm for 3000K & 1450lm for 4000K
Volt: 24V
Kelvin: 3000K/4000K
Max. Length 5 meters/1 electricity wire circuit

8. custom designs

“Discover the magic of personalized illumination with our custom light design services.

Whether you’re envisioning a unique ambiance for your home or a standout feature for your business, we are here to bring your creative ideas to life. Transform any space with bespoke lighting solutions tailored to your style and needs.”

“Personalized lighting design turns any space into a true reflection of its inhabitant’s spirit.”

Thank you for reading our catalogue. To ensure that you can deliver the best projects to your clients, we will gladly assist you in any way we can. We are happy to help you with your creative projects because interior design is always a great ride. You can get in touch with us over the phone or online with just one click. Share the catalog with a colleague; we will be happy to consider recommendations.

Interior design and 3D visualisation in this catalog were made with the suport of interior Arhitect Iuliana Marus which we highly recommend.

We are grateful to the outstanding Inoveo team for guiding us in uncovering the essence of our brand.

See you soon,
Carmen & Alexandru
